EDUCATION

B.Sc Computer Science – Carnegie Mellon University | Freshmen, Class of 2029 2021-2025

- **Related Coursework:** Principles of Imperative Computation, Mathematical Foundations for CompSci, Matrices and Linear Transformations, Great Practical Ideas in CS
- **Activities/Societies:** Carnegie AI Safety Initiative(CASI), ACM@CMU, MMA Club.

Montgomery College, Rockville MD | Dual Enrollment in High School, Class of 2025 2024-2025

- **GPA: 4.00**
- **Related Coursework:** Computer Science 2, Political Ideologies, Linear Algebra, Discrete Structures

EXPERIENCE

National Institute of Standards and Technology

June 2024 – Present

Center of Neutron Research Intern

- Researching and developing Deep Learning models to classify the crystal structures using neutron scattering data
- Writing paper addressing flaws in ResNet architecture for crystal structure classification, advocating paradigm-shifting change in using transformers instead.
- Performing preprocessing techniques like data augmentation and de-duplicating on 1+ mil crystal databases using pandas and numpy

Khanjur R&D

Jan 2024 – June 2024

Research and Machine Learning Engineer Student Intern

- Wrote analysis paper about competing machine learning(ML) algorithms for characterizing properties of Shape Memory Alloys(SMA), a type of metal
- Created and tested a Support Vector Regression ML model to help the company predict different SMA's martensitic transformation temperatures.
- Introduced and taught company executives machine learning fundamentals.

CSKnights

Sept 2023 – June 2025

Co-Founder and Co-President

- Started a school-wide computer science club for over 50 students that worked to foster a computer science community
- Organized hackathons; taught and created summer classes on algorithms and data structures; mentored leaders of affiliated sub-clubs;

AWARDS/HONORS

- Top 15 Adv Teams, 2024 Lockheed Martin CodeQuest
- 2nd Place Team, 2023 Regional County Math Meet
- Excellence in Engineering, 2023 FIRST Robotics
- Top 10, 2023 Lockheed Martin CyberQuest
- Prize Winner, 2022 CollegeBoard Hackathon
- CISCO Intro to Cybersecurity Badge

RELEVANT SKILLS

- **Technical Skills:** Python, Java,; Libraries: NumPy, Pandas, Matplotlib, **PyTorch**; Other: Bash/Linux CLI, **Slurm**/HPC Computing
